

Our Future is Driven by Our History of Excellence

We pride ourselves on customer service and analytical quality. We achieve this through exceptional operational performance, technological supremacy, and by knowing our customers and understanding their needs.

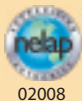

The Ana-Lab Difference

- A highly trained and experienced staff of professional scientists.
- Conscientious support personnel who put the client first.
- A laboratory equipped with state-of-the-art precision analytical instruments.
- Only approved laboratory procedures are used.
- All test results are confidential.
- Our laboratory services meet regulatory requirements.
- All reports are computer generated and include quality control results.
- With eight regional offices in four states, Ana-Lab can frequently provide support services including sample pick-up.
- Ana-Lab has earned the highest levels of accreditations including the American Association for Laboratory Accreditation (ISO 17025) and the Environmental Protection Agency's National Environmental Laboratory Accreditation Program (NELAP) standard.
- Ana-Lab conforms to a uniform code of ethics and routinely conducts ethics training for employees.

Seal of Excellence Award

Ana-Lab received the American Council of Independent Laboratories (ACIL) Seal of Excellence Award that is awarded to laboratories demonstrating the highest level of test results and data and their ability to exceed client expectations.

Put Ana-Lab to Work for You

Four Decades of Quality Service

Founded by Dr. Charles H. Whiteside in 1965, Ana-Lab Corporation has been providing superior environmental testing to thousands of federal, state, commercial, industrial, and municipal clients for four decades. The company's laboratory and corporate office are located in Kilgore, Texas. In addition, the company has eight regional service centers in four states.

Certifications and Accreditations

By providing the very best analytical services and maintaining the highest ethical standards, Ana-Lab has earned the most prestigious quality assessments and certifications in the industry including:

- National Environmental Laboratory Accreditation Program (NELAP #02008)
- American Association for Laboratory Accreditation (A2LA) ISO/IEC 17025

- The U.S. Environmental Protection Agency (EPA)
- Texas Commission on Environmental Quality
- U.S. Department of Agriculture (USDA)
- Entidad Mexicana de Acreditacion a.c. (EMA)
- Louisiana Department of Environmental Quality
- Oklahoma Department of Environmental Quality
- Delaware Health and Social Services, Office of Drinking Water
- Arkansas Department of Environmental Quality
- Texas Department of Health Lead Firm

Complete Service Laboratory

Ana-Lab provides exceptional and reliable laboratory services for its clients nationwide and in Mexico. The company's test methods are approved by the Environmental Protection Agency, the Texas Commission on Environmental Quality, and the U.S. Department of Health Service. Ana-Lab offers clients specialized custom services by developing unique procedures to meet their particular and

most demanding analytical requirements. Ana-Lab has a comprehensive and fully computerized QA/QC program that enables the company to maintain standards of quality far beyond the minimal levels required.

Ground Water Analysis

Ana-Lab follows extensive ground water sampling practices and procedures guaranteed to meet regulatory requirements.

Wastewater Analysis

Ana-Lab has broad experience and expertise in pollution monitoring and waste disposal. We analyze wastewater and solid waste for a full range of parameters.

Soil Analysis

Ana-Lab is certified in most states and with the EPA to accommodate all Land Application requirements. These testing services include heavy metal analysis, 503E sludge regulations, microbiological analysis, and organic compounds.

Petroleum and Related Materials

Ana-Lab offers a full range of petroleum testing services that includes sulfur content, chromatographic analysis, wear metals, API distillations, Reid vapor pressure, flash point, and BTU heating value.

Hazardous Waste

Ana-Lab is certified nationwide with the Environmental Protection Agency to accommodate all of your hazardous waste characterization requirements.

Instrumentation

Ana-Lab is equipped with state-of-the-art instruments including GS/MS, ICP/MS, ICP, GC, HPLC, AA/HGA, and other sophisticated instrumentation. The

company's laboratory is on the cutting edge of rapidly changing technology.

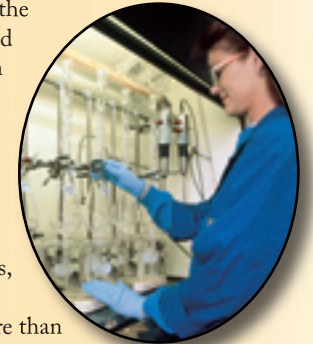

Extensive Field Services

Ana-Lab offers a sample collection service throughout the United States and Mexico. Our eight regional service centers in four states provide superior on-site customer services. Our regional service

center in Brownsville, Texas, serves clients in Mexico. Ana-Lab has received accreditation and certification from the Mexican Entity of Accreditation (EMA) to perform certified laboratory analysis for clients in Mexico. Ana-Lab is the first laboratory in the United States to be accredited by the Mexican accreditation authority.

Lead and Mold Analysis

Ana-Lab is a NLLAP accredited environmental lead laboratory. Our chemists, technicians, and quality assurance specialist have more than 10 years' experience in lead inspection and analysis. Our analytical laboratory staff can also sample, analyze, and identify fungi, molds, and yeasts. Contact Ana-Lab for comprehensive mold testing and analysis.

WebLDS

Ana-Lab's WebLDS provides clients with secured, real-time, 24-hour access to their data. Clients are able to watch the progress of their samples from login through data reporting as tests are completed in our laboratory.

Our WebLDS provides solid communication between our clients and laboratory personnel to assist clients with all of their analytical requirements.
